

Snigdhaa wants Shorr!

Snigdhaa Srivastava aka Kankoo of Shorr...Goongi Kankoo Ki Bolti Kahani is nursing a different passion these days. She plays a mute girl, but in reality she wants a lot of 'Shorr' in her life. More so these days, when she's spending over 25 days every month at various locations shooting from morning till night.

So what the girl does is use all the time she gets between shots listening to old melodies, ghazals and classical music. Not just that, she even recites them and keeps rehearsing her favourite numbers. "I always wanted to be a singer but after graduation, destiny got me into acting," she says. Music has suddenly become so much a part of her life that she plans to take singing classes from a professional. And if a singing reality show comes her way, we won't be surprised if she grabs the opportunity.
